is going
to be
alright*

Michael Kittsteiner

assisted and inspired
by his lovely wife Elke

Client Experiences

Mr Stephan F. from FN:
"For a long time, my son was unable to concentrate properly either at school and or when he was doing his homework. Homeopathic medicines brought only short-term improvements and orthodox medication was not appropriate for him due to the strong side effects. Our pharmacist, Mr Kittsteiner, recommended his "lernstark" remedy and my son tried it out. The **results were awesome; after just one week, my son was concentrating fully again**, doing his homework properly and consistently and since then- as confirmed by his teacher- has developed into a very attentive pupil. To our delight, he now gets only good marks. I am eternally grateful to Mr Kittsteiner".

Mrs Claudia K. from FN:
"I had been suffering from deep **depression** for several months, had no drive, didn't want to see people anymore and just stayed in bed. Mr Kittsteiner's spagyric remedy, which he made up especially for me, started to work after just a short time; I felt like a **changed** person and **have since regained my drive and good humour**- getting up in the morning is no longer a problem! I now swear by spagyric".

Mr Dietmar W. from FN:
For years, I suffered a great deal of pain caused by **arthritis** in my shoulder. I had to take strong painkillers which in turn had serious side-effects for my stomach. Since taking the spagyric arthritis remedy recommended and developed by Mr Kittsteiner himself, I am **now able to do without painkillers totally**. When I have acute pain, his spagyric remedy immediately gets rid of my pain. I would love to inform the press of my gratitude and enthusiasm".

Michael Kittsteiner ...

The fascination of spagyric- why?

"For me, this is the start of a **new dimension in healthcare**".

I realised that spagyric was an absolutely **precious gift from the world of plants**. I learned to **identify and link the healing power of plants with illness symptoms**. The marvellous and wide-ranging effects of my spagyric remedies have continued to amaze my clients for many years now".

Spagyric

Combines

the power of medicinal plants
the energy of homeopathy
the potential of Bach flowers
the mineral nutrients of Dr Schlüssler salts

Make Use of Nature's Healing Power

The marigold
gives energy

What is spagyric?

Spagyric is a **traditional, well-tried and successful eure** derived from age-old processes. Its origins go back as far as ancient times. **Hermes Trismegistos** and **Paracelsius** are amongst the most distinguished personalities associated with it.

Stimulated by their work, **Dr Carl Friedrich Zimpel** developed his own method for creating **highly effective medicines from plants**- known today as Dr Zimpel's spagyric essences. The medicinal plants used for this are cultivated under ecologically certified conditions by the Staufen-Pharma company, mainly in the region around Göppingen, and are tested and controlled using the strictest guidelines.

Michael Kittsteiner, a pharmacist in the traditional sense, is carrying on the earlier work with spagyric. As a result of years of research and development, he has **created several remedies** which, thanks to their outstanding **effectiveness and compatibility**, have been very successfully deployed.

Production

Spagyric comes from the Greek word 'span', meaning to extract/separate, and 'ageirein', meaning to combine/ bring together. It contains the **entire healing power of each plant** and has a demonstrably outstanding medicinal benefit for man and beast.

Spagyric production: Medicinal plants, **carefully selected and tested** using medical criteria, are **fermented** with yeast cultures and then **distilled**. The residue, **carefully dried**, is **incinerated** at 400 degrees centigrade. The valuable mineral nutrients obtained are dissolved in distillate and all matured together for 3 weeks into pure medicinal plant essence.

Application and Effects

There are generally **no side-effects or interactions with other medication**. Therefore, spagyric products are ideally suited to self-medication or as a supporting and complementary therapy for other treatments.

However, for treatment to be successful, it is absolutely necessary to follow the dosage instructions to the letter.

Application is via a **mouth-spray** with an atomiser pump to enable **targeted spraying** in the throat area. In this way, the active agents are absorbed in the mucus membranes and transported to the areas to be treated.

Alternatively, application can be carried out by adding **drops** to small quantities of fluid. However, hot drinks should not be used here on account of the potential loss of effectiveness.

Spagyric **cream** (e.g. with acne for regeneration of the skin or for veins) may be applied on the affected skin area- extremely effective and very popular.

Spray yourself naturally back to health!

We have developed 15 different categories of product:

| | |
|---------------------------|-----------------|
| Head | Blood |
| Colds | Stomach |
| Build-up I detoxification | Intestinelliver |
| Psyche | Skin |
| Allergies | Hormones |
